Part VI: Pollution Prevention Plan Availability

All applicants must submit a completed and approvable Stormwater Pollution Prevention Plan (SWPPP).

Part VII: Confidential Information in the Pollution Prevention Plan

If the registrant claims that certain elements of the Plan constitute a trade secret or are otherwise exempt from the disclosure requirements of the state Freedom of Information Act (FOIA), they shall follow the procedure below regarding information subject to FOIA requirements.

Does your plan withhold certain confidential information from the public? ☐ Yes ☐ No

Please see directions below regarding withholding information.

Instructions for plan confidentiality:

Under the Connecticut Freedom of Information Act (FOIA), a Registrant may have reason to withhold from public disclosure certain information in a plan or document prepared and maintained pursuant to a requirement of the general permit. Such information in a plan or document may be redacted provided the Registrant makes specific notation on the registration form filed with the Department: (1) that such claim is being made with a brief explanation of the type of information being withheld or redacted and the reason(s) therefore; and (2) of the location within the plan or document where such information has been redacted review either or removed. A plan or document that is being made available for public on a website or provided directly to a member of the public as a hardcopy may be in its redacted form. However, when the Department requests such plan or document be submitted for Department review, the Department will require that it be submitted in its unredacted form, in which case the Registrant must specify the information within such plan or document that is claimed to be confidential with the specific notations described above. The Department will not release any such information to the public which the Registrant claims must be withheld unless a determination has been made by the Department and any subsequent appeal of such determination filed with the Connecticut Freedom of Information Commission results in a determination that such information shall not be withheld from the pub lic. If the Registrant seeks a determination regarding such claim of confidentiality from the Connecticut Freedom of Information Commission without obtaining a prior determination from the Department, the Registrant shall notify the Department in writing of such pending determination, at which time the Department will not release such information to the public unless otherwise determined by the Connecticut Freedom of Information Commission.

Part VIII: Registrant Certification

The registrant *and* the individual(s) responsible for actually preparing the registration must sign this part. A registration will be considered incomplete unless all required signatures are provided.

"I hereby certify that I am making this certification in connection with a registration under the General Permit for the Discharge of Stormwater Associated with Industrial Activity, submitted to the Commissioner for an activity located on this application and that all terms and conditions of the general permit are being met for all discharges which have been created, initiated, or maintained, and such activity is eligible for authorization under such permit. I further certify that a system is in place to ensure that all terms and conditions of this general permit will continue to be met for all discharges authorized by this general permit at the site. I certify that I have personally examined and am familiar with the information that provides the basis for this certification, including but not limited to all information described in Section 2.2.16.1 of such general permit, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining such information, that the information upon which this certification is based is true, accurate and complete to the best of my knowledge and belief. I certify that I have made an affirmative determination in accordance with Section 2.2.16.2 of this general permit. I understand that the registration filed in connection with such general permit is submitted in accordance with and shall comply with the requirements of Section 22a-430b of Conn. Gen. Stat. I also understand that knowingly making any false statement in the submitted information and in this certification may be punishable as a criminal offense, including the possibility of fine and imprisonment, under Section 53a-157b of the Conn. Gen. Stat., and any other applicable law."

RE: Permit Issuance
NPDES Industrial Stormwater General Permit
Application No. 202604128 & Permit No. CTR050061

Dear Permittee:

Pursuant to Section 22a-430 of Chapter 446k, Connecticut General Statutes (Conn. Gen. Stat.), and Regulations of Connecticut State Agencies (Regs. Conn. State Agency) adopted thereunder, as amended, and Section 402(b) of the Clean Water Act, as amended, 33 USC 1251, et. Seq., the Department of Energy and Environmental Protection (DEEP) has issued the attached authorization to discharge under the National Pollutant Discharge Elimination System (NPDES) *General Permit for the Discharge of Stormwater Associated with Industrial Activities*, issued on October 1, 2025 for the above-referenced facility.

Review the entire General Permit, its conditions, and the supporting regulations. This permit expires on September 30, 2030. Please be advised that on and after the effective date of this Notice of Coverage, the Permittee must comply with all terms, conditions, and limitations of the permit, the requirements of the regulations that govern the authorized activity, and any other applicable state, federal, or local laws or regulations. **All activities must conform to that which is specifically authorized**.

This authorization is not transferable to a new entity. To change the name of the existing permit holder, submit the Notice of Change form. **In case of an emergency, please contact DEEP Dispatch at 860-424-3333**.

Report instances of noncompliance on DEEP's website here: Stormwater Management

Retain a copy of this letter and Notice of Coverage in your SWPPP for your records. Should you have any questions about this notice or any other questions concerning the general permit, please visit the Industrial Stormwater website at Industrial Stormwater Program or contact the program staff at deep.stormwaterindustrial@ct.gov.

NOTICE OF COVERAGE

Authorization to Discharge Stormwater under the Industrial Stormwater General Permit

Pursuant to Section 22a-430b of the Connecticut General Statutes, as amended, and in accordance with the provisions of the National Pollutant Discharge Elimination System (NPDES) *General Permit for the Discharge of Stormwater Associated with Industrial Activities*, issued on October 1, 2025 (hereinafter referred to as the Industrial Stormwater General Permit or General Permit), the Commissioner of Energy and Environmental Protection (hereinafter, the Commissioner) hereby grants authorization to the following permittee at the following site:

Permittee Information:	**Site Information:**
South Windsor Auto Recycling, LLC	South Windsor Auto Recycling, LLC
22 Schank Road	22 Schank Road
South Windsor, CT 06074	South Windsor, CT 06074

This authorization is issued based upon the receipt of application no. 202604128 submitted by the permittee in accordance with the Industrial Stormwater General Permit. This Notice of Coverage (NOC) constitutes written confirmation that the Commissioner has received a complete application from the Permittee and that the Permittee is hereby authorized to discharge stormwater associated with industrial activity from the site location listed above, in accordance with the terms and conditions of the General Permit. The following permit has been assigned to this site:

Permit Number: CTR050061
Effective Date of Authorization: July 02, 2026
Permit Expiration Date: September 30, 2030

It is expressly understood that this authorization does not constitute a determination by the Connecticut Department of Energy and Environmental Protection regarding the validity, accuracy, or completeness of any information provided in the application or associated documentation. The electronic certification by the Permittee represents that, to the best of their knowledge and belief, the site is eligible for coverage under the General Permit and that all submitted information is true, accurate, and complete. Authorization to discharge shall be considered void if any information submitted in the registration is found to be false, misleading, or if the site is not eligible for coverage. The Permittee shall at all times ensure compliance with all provisions, limitations, and conditions of the General Permit, including applicable effluent limits, benchmark monitoring requirements, and all sector-specific performance standards. Any modification, addition, or removal of outfalls must be approved in accordance with the general permit. This NOC does not relieve the Permittee of compliance with other federal, state, or local laws.

Authorization is issued on July 02, 2026

Obligations of Industrial Stormwater Permit Holders

Any entity authorized by the Commissioner of Energy and Environmental Protection under the NPDES *General Permit for the Discharge of Stormwater Associated with Industrial Activity* (Industrial Stormwater General Permit or general permit) assumes specific responsibilities to ensure ongoing compliance with terms and conditions of the permit. This document provides an overview of key permit obligations but does not serve as a comprehensive list of all requirements. Permit holders are responsible for reviewing and complying with all applicable provisions of the general permit.

I. General Conditions

The permittee must at all times continue to meet the eligibility and authorization set forth in Section 2 of this general permit for the duration of coverage. Authorized activities must be conducted in accordance with all applicable general and sector-specific conditions, including but not limited to the following:

- Comply with discharge-specific requirements, if applicable.
- Implement all stormwater control measures required by the general permit, such as:
  - Good housekeeping practices
  - Minimization of exposure to stormwater
  - Containment of liquids and wastewater
  - Dust control
  - Vehicle and equipment storage, cleaning, and maintenance practices
  - Management of solid and de-icing materials
  - Spill prevention and response procedures
  - Erosion and sediment controls
  - Preventive maintenance
  - Stormwater management structures and practices
  - Infiltration and groundwater quality protection
  - Employee training
  - Site control for inactive or unstaffed sites
  - Posting of required site notice
  - Sector-specific best management practices (BMPs)
- Develop and maintain a Stormwater Pollution Prevention Plan (SWPPP) in accordance with the general permit.
- Conduct all required inspections and visual assessments.
- Perform all required monitoring activities (see Section II below).
- Implement and document corrective actions when deficiencies or permit violations occur.
- Maintain records and documentation as required by the general permit.
- Submit the Annual Report electronically in accordance with permit timelines.
- Report any permit violations as required by the general permit.

II. Monitoring and Reporting Requirements

The Permittee shall comply with all applicable analytical monitoring and reporting provisions set forth in the general permit, including, but not limited to the following categories of monitoring:

- Benchmark Monitoring
- Effluent Limits Monitoring
- Aquatic Toxicity

- Additional Monitoring
- Impaired Waters Monitoring
- Other Monitoring as required by the Commissioner

Monitoring requirements applicable to each individual sector are identified in tables contained in Section 6 of the general permit.

III. Electronic Discharge Monitoring Report Submissions

All stormwater DMR data collected must be submitted in EPA s online NetDMR system, as specified in the permit or otherwise specified by the Commissioner. The frequency, due dates, and types of DMR submissions shall be as specified in the general permit and may vary by monitoring category or sector. Failure to submit complete, accurate, and timely DMRs constitutes a violation of the permit and may result in enforcement action.

Table 1. DMR Submission Types and Deadlines

Monitoring Frequency	First Monitoring Period	DMR Due Date	DMR Type	Submission Path
Quarterly	January 1st - March 30th	April 30th	Paper Until receipt of Notice of Coverage	Email Until receipt of Notice of Coverage
	April 1st - June 30th	July 30th		
	July 1st - September 30th	October 30th		
	October 1st - December 31st	January 30th		
Semi-Annual(first)	January 1st - June 30th	July 30th		
Semi-Annual(second)	July 1st - December 31st	January 30th		
Annual	January 1st - December 31st	January 30th		

IV. Recordkeeping Requirements

The Permittee shall maintain all monitoring records, reports, analytical results, calibration data, inspection logs, and other relevant documentation for a minimum of five (5) years from the date that coverage under this permit expires or is terminated, unless otherwise specified by the Commissioner. Records shall be made available to the Department upon request.

V. Compliance Obligations

The permittee shall at all times ensure compliance with all applicable conditions and requirements of the Industrial Stormwater General Permit. The permittee is responsible for the development, maintenance, and implementation of a current Stormwater Pollution Prevention Plan (SWPPP) and the performance of regular activities, including, but not limited to:

- Conducting inspections of stormwater controls, best management practices, and discharge points;
- Performing visual assessments of discharges;
- Collecting, analyzing, and reporting all analytical monitoring data; and
- Implementing corrective actions where deficiencies, exceedances, or noncompliance are identified.

Failure to maintain compliance with any of the above requirements may result in enforcement actions, including penalties, modification, or revocation of coverage under the general permit.
